

YOLON
ENERGY. MADE SIMPLE.

THE FUTURE IN REVERSE

Yolon Energy offers a reverse auction experience engineered to drive competition, increase efficiency and lower your prices.

It is a completely transparent process that utilizes state-of-the-art technology to eliminate the delays and inaccuracies of outdated paper RFPs that many suppliers tend to ignore.

THE YOLON REVERSE AUCTION EXPERIENCE PROVIDES YOU WITH:

A livestreaming web-based platform that puts you in control, giving you the ability to customize pricing events and complex product structures

Access to a development team that creates a unique auction experience based upon your specific solicitation criteria

The ability to work with all relevant suppliers in your area

Savings of up to 20% off the best price

PUT OUR TECHNOLOGY TO WORK FOR YOUR BUSINESS

Watch in real-time as suppliers compete aggressively to earn your business

Test multiple pricing parameters by product, term length and green energy

Post auction market watch and ongoing risk management

All bids date- and time-stamped for audit level data trail and accuracy

Let us show you how we can simplify your bidding process—increasing competition, minimizing risk and reducing costs. Sign up for a 30-minute demo today.
